Hi **Abdus Salam**,

Welcome to the USC CAS application!

Your **University of Southern California** CAS ID is: **5799155902**. You'll use this ID number throughout the application process so have it ready when contacting USC Customer Service.

You'll also receive a separate USC ID within 48 to 72 hours after you submit your application. Please be sure to include that 10-digit ID when corresponding with the university.

Be sure to select your program(s) of interest on the **Add Programs** tab before contacting us with questions about the application, fee waivers, etc. [Click here](#) to find information about the programs USC offers, and remember to research each program's instructions, prerequisites, and deadline requirements **before** you submit your application. Once you submit your application, no changes or refunds can be made.

Note that your application is considered complete when:

- You submit your application and receive an email confirming it was received.
- You submit your application fee payment and it is marked as received on the Check Status tab.
- You upload copies of official transcripts, then mail official transcripts directly to USC.
- You request that your official test scores be sent to USC per your program requirements.
- All required recommendation letters are complete.

You're required to review all information in the USC Applicant Help Center. To access, click the question mark icon at the top of the application. Here, you'll find answers to the most common questions. Additionally, you can [review these videos](#) to help you navigate the application. Lastly, you can refer to the [USC Office of Graduate Admission's FAQs](#) or contact the [USC Office of Graduate Admission](#).

Congratulations and best of luck on this next step in your career!

Thanks,

USCCAS
